Pipe connection flange - 8" Sch 40				2.9	93147
Pipe connection flange - 12" Sch 40				7.3	93148

Specifications

General

The storm water Detention*/Infiltration*/Retention* system shall be ACO Stormbrixx as manufactured by ACO Polymer Products, Inc..

Materials

The tank body shall be manufactured from high density polyethylene (HDPE) and have minimum properties as follows:

Tensile impact strength: 152 ft-lb/in²

Tensile strength, ultimate: 3,480 psi

Water absorption 0.01%

Frost proof, salt proof and fuels and oils resistant

The stormwater tank shall provide a minimum 95% open area, full access to all areas and levels for maintenance.

Geomembranes/Geotextiles

The StormBrixx system shall be wrapped in appropriate permeable geotextile* or impermeable geomembrane and protection fleece* (supplied by others) as recommended by project design engineer.

Accessories

The storm water system shall be used in conjunction with inspection shaft**/access chamber**. See separate Spec Info sheets for further details.

Installation

Storm water system shall be installed in strict accordance with the manufacturer's installation instructions and recommendations.
